The world is now on the brink of the fourth industrial revolution where smart factories are created by integrating production, with information and communication technology. The powerful combination of enhanced computational power and pervasive digital connectivity is trailblazing a new era of intelligent and flexible manufacturing, and leading-edge innovations in many industries, including the textile sector.

Automation, robotics and vision control systems, together with the Internet of Things to move data from markets to manufacturing facilities, are set to revolutionise textile and garment manufacturing.

Technological innovation, a basic of industry transformation, is pivotal to the sustainability of the textile and garment industry.

ITMA is the trendsetting textile and garment machinery platform where the industry converges every four years to explore fresh ideas, sustainable solutions and collaborative partnerships for business growth. Be part of the future of manufacturing at ITMA 2019!
CHALKS UP NEW MILESTONE

ITMA 2015

Estimated sales - immediate
- <100,000 euros: 42%
- 100,000 - 500,000 euros: 14%
- Above 500,000 euros: 8%

Estimated sales – next 6 months
- <100,000 euros: 30%
- 100,000 - 500,000 euros: 18%
- Above 500,000 euros: 18%

Trade enquiries
- <100,000 euros: 27%
- 100,000 - 500,000 euros: 15%
- Above 500,000 euros: 21%

Overall experience at ITMA
- Good to Excellent: 93%

Quality of visitors
- Good to Excellent: 80%

EXHIBITORS GIVE THE THUMBS’ UP

1,691 exhibitors from 46 countries
Top 5 countries by space: Italy, Germany, Turkey, China & Switzerland

123,000 visitorship from 147 countries
Top 10 countries: Italy, India, Turkey, Germany, France, United States, Iran, Brazil, Pakistan and Spain

95 supporting media from 19 countries

1,000 participants attended 5 knowledge-sharing and networking events

108,268 square metres of net exhibition space
Top 5 sectors: finishing, spinning, knitting, weaving and printing

166 supporting associations from 52 countries

THE FUTURE OF TEXTILE & GARMENT MAKING AT ITMA 2019

ITMA 2019 provides an unrivalled marketplace and knowledge platform:
• world-class, one-stop leading-edge solutions showcase on raw materials and smart manufacturing
• live demonstration of machinery across the entire manufacturing value chain
• excellent place for gathering critical business intelligence and best practices
• congregation of industry leaders for outstanding collaboration and networking

Back to Barcelona after a successful show in 2011, ITMA 2019 will bring new breakthroughs in manufacturing technology to the global textile and garment-making community.

EXHIBITS FROM 19 CHAPTERS OVER 200,000 SQUARE METRES

ITMA 2019 provides an unrivalled marketplace and knowledge platform:
• world-class, one-stop leading-edge solutions showcase on raw materials and smart manufacturing
• live demonstration of machinery across the entire manufacturing value chain
• excellent place for gathering critical business intelligence and best practices
• congregation of industry leaders for outstanding collaboration and networking
research and development plays a critical role in the innovation process.

INNOVATION FOR INDUSTRY SUSTAINABILITY

Innovation is vital for textile and garment makers to remain globally competitive and sustainable, and research and development plays a critical role in the innovation process. Research and educational institutions have an important role to play in driving innovation excellence and ensuring the sustainable development of the textile and garment making industry.

Research and educational institutions have an important role to play in driving innovation excellence and ensuring the sustainable development of the textile and garment making industry.

The Research & Innovation Pavilion at ITMA 2019 • showcases cutting-edge textile and related research and development projects • encourages collaboration among companies, research centres and universities • provides quality education and training opportunities

Supporting the research community To promote excellence in innovation, research and development, CEMATEX continues to support pavilion exhibitors with a subsidy. The CEMATEX Research & Innovation Grant will help defray participation cost by at least 50%

Speakers Platform An additional platform for Research & Innovation Pavilion exhibitors to share their research projects is the Speakers Platform. Selected exhibitors will give a 20-minute presentation based on the given theme and topics.

For more information on participation and the grant, contact: application@itma.com

CREATING A COMPETITIVE ADVANTAGE THROUGH RESEARCH & INNOVATION

MAKE IT BARCELONA

One of the most beautiful and exciting cities in the world, Barcelona is the cosmopolitan capital of Spain’s Catalonia region. It has a huge number of attractions including museums dedicated to Picasso and Miró, and the iconic Sagrada Familia church by Gaudí - Spain’s most famous architect. The city has a scintillating atmosphere, which provides the visitor with a truly unforgettable experience. Make your mark at the world’s biggest textile and garment technology exhibition in lively Barcelona.

INSPIRING EVENTS LEARNING & SHARING

ITMA is not only a trendsetting exhibition but a knowledge-sharing platform. Enjoy the myriad of complementary educational and networking opportunities during the exhibition.

At ITMA 2015, a host of events was held to add value to industry professionals’ visit. Some of the events were organised by ITMA in partnership with leading industry organisations.

Look out for updates on ITMA 2019 complementary events that will enhance the participation of industry stakeholders at www.itma.com.

- International conferences
- Technical workshops
- Focus group forums
- Association events
